

DALI

102

FEATURES:

- **Linear Directivity cross-over network for improved off-axis frequency response**
- **Absorbent material on front baffle for reduced diffraction**
- **3/4" tweeter with coated cloth dome and ferro-fluid cooling**
- **Crossover with metal alloy polypropylene capacitors and air-core inductors**
- **Bass reflex for enhanced deep bass output**
- **Enclosure of 19mm particleboard**
- **Linear impedance for easy amplifier load**
- **6 1/2" mid/bass driver with polypropylene diaphragm and damped rubber suspension**
- **Gold-plated terminals**
- **Mirror-image pairs**
