

IN ADMIRATION OF MUSIC

EUPHONIA MS5

The EUPHONIA MS5 (MS for Main Speaker) is the flagship of the EUPHONIA Series. At 124 cm tall and a dead weight of 69 kg, this is an armor-crushing giant of a loudspeaker.

Essentially, the EUPHONIA MS5 is a three-way bass reflex speaker with 2 x 8" bass woofers, 1x 6.5" midrange driver and DALI's proprietary ribbon/soft dome hybrid tweeter module. In fact, it is more a three-and-a half-way design, as the dome and the ribbon do not cover the same frequency range. The Hybrid Tweeter Module and the paper/woodfiber cone drivers are core DALI technologies and the heart of the EUPHONIA Series. Same core technologies are employed throughout the DALI speaker range.

SPECIFICATIONS

Frequency range (+/- 3dB) [Hz]:	31,0 - 28.000,0
Sensitivity (2,83 V/1 m) [dB]:	89,0
Nominal impedance [ohms]:	4
Maximum SPL [dB]:	115,0
Recommended amplifier power [W]:	50,0 - 500,0
Crossover frequencies:	690 / 3.300 / (15.000)
Hybrid tweeter module, Super high frequency driver:	Ribbon
Hybrid tweeter module, High frequency driver:	Soft textile dome
Midrange frequency driver:	Wood fibre cone
Low frequency driver:	Wood fibre cone
Enclosure type:	Bass reflex
Bass reflex tuning frequency [Hz]:	24,0
Connection input(s):	Tri-wire
Recommended placement:	Floor
Recommended distance from wall:	250,0
Loudspeaker type:	Front
Max loudspeaker dimensions incl. base and grille	1245 X 280 X 552

Loudspeaker weight including base and grille [kg]: 69,0
