# EUPHONIA PHANTOM IV

The EUPHONIA IWS3 PHANTOM (IWS for In-Wall Speaker) was developed by public demand. EUPHONIA users from around the world wanted the option of getting EUPHONIA sound in the wall.

Drawing heavily on technological innovations from our acclaimed high end EUPHONIA Series, modified to meet the strict demands of the rapidly expanding installation market, we devised the EUPHONIA IWS 3 PHANTOM, a 2½-way speaker with a 6½" woofer/midrange and a Hybrid Tweeter Module in a sealed enclosure.

The EUPHONIA PHANTOM comes in an aluminum sealed enclosure and with EUPHONIA drivers and tweeters. Included is a painting mask and a cutout template for easy installation. The cutout template makes it easy to preview the loudspeaker positioning before the IWS3 are mounted.

## SPECIFICATIONS

Frequency range (+/- 3dB) [Hz]:	64,0 - 28.000,0
Sensitivity (2,83 V/1 m) [dB]:	89,0
Nominal impedance [ohms]:	4
Maximum SPL [dB]:	108,0
Recommended amplifier power [W]:	50,0 - 200,0
Crossover frequencies:	3.100 / 15.000
Hybrid tweeter module, Super high frequency driver:	Ribbon
Hybrid tweeter module, High frequency driver:	Soft textile dome
Low frequency driver:	Wood fibre cone
Enclosure type:	Closed box
Recommended placement:	On-Wall; Built in (In-Wall)
Loudspeaker type:	In-Wall ; On-Wall
Max loudspeaker dimensions incl. base and grille	480 X 290 X 110
Loudspeaker weight including base and grille [kg]:	7,3
