EVIDENCE 470

The smaller of the two floorstanding Evidence loudspeakers with big sound and convincing style. Each of the two 6½" woofer/midrange units are placed in separate bass reflex chambers – a detail which results in lightning fast and totally realistic bass.

Combined with a 1" coated silk dome tweeter, they are connected to DALI's unique, hand-assembled crossover network which ensures clear undistorted sound.

The Evidence 470 is developed, designed, Hand-built, assembled and individually tested at the DALI factory in Denmark.
