EVIDENCE C70

No DALI series is complete without a center speaker that matches the reference-creating standard of the series. With Evidence C70 you obtain exceptional clarity and perfect reproduction of speech. Twin 5" woofer/midrange custom-made units and a 1" soft dome tweeter, controlled by DALI's unique, hand-assembled crossover network and mounted in the elegant and magnetically shielded bass reflex enclosure deliver the most outstanding center channel performance.

The Evidence C70 is developed, designed, hand-built, assembled and individually tested at the DALI factory in Denmark.
