

IN ADMIRATION OF MUSIC

## SUITE 2.8

The 2.8 is the largest of the SUITE models. This time the curved and vibration damping cabinet gives a warm embrace to two 6.5" woofer/midranges and a 1" soft dome tweeter in a 2.5 way set-up.

The lower 6.5" driver handles all frequencies up to 700 Hz, while the upper one is in charge of bass and midrange information all the way to where it crosses over to the 1" soft dome tweeter. This co-operation between the twin woofer/midranges results in extremely articulate and tuneful bass and well-balanced sound reproduction.

### SPECIFICATIONS

|  |                   |
|--|-------------------|
| Frequency range (+/- 3dB) [Hz]:                    | 37,0 - 25.000,0   |
| Sensitivity (2,83 V/1 m) [dB]:                     | 90,0              |
| Nominal impedance [ohms]:                          | 4                 |
| Maximum SPL [dB]:                                  | 111,0             |
| Recommended amplifier power [W]:                   | 30,0 - 160,0      |
| Crossover frequencies:                             | 2900              |
| High frequency driver:                             | Soft textile dome |
| Low frequency driver:                              | Paper fibre cone  |
| Enclosure type:                                    | Bass reflex       |
| Standby power consumption [W]:                     | 40,0              |
| Connection input(s):                               | Bi-wire           |
| Recommended placement:                             | Floor             |
| Loudspeaker type:                                  | Front             |
| Max loudspeaker dimensions incl. base and grille   | 200 X 1050 X 360  |
| Loudspeaker weight including base and grille [kg]: | 20,7              |
